JUNE 2026

FBCS
CONFERENCE 2026

THEME
Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insights for Patient-Centered Care

NATIONAL ANTHEM

Nigeria, we hail thee,
Our own dear native land,
Though tribes and tongues may differ,
In brotherhood we stand
Nigerians all, are proud to serve
Our sovereign Motherland.

Our flag shall be a symbol
That truth and justice reign,
In peace or battle honoured,
And this we count as gain,
To hand on to our children
A banner without stain.

O God of all creation,
Grant this our one request:
Help us to build a nation
Where no man is oppressed,
And so with peace and plenty
Nigeria may be blessed.

KEYNOTE SPEAKER

PROF. JOSEPH AHANEKU

Professor Joseph Ahaneku, a native of Ahiara Mbaise, Imo State, was born on 1st October 1962. He obtained his B.Sc Hons Biochemistry, M.Sc, and PhD in Chemical Pathology from the University of Ibadan, becoming one of the youngest PhD holders in Chemical Pathology in Africa at age 28.

He joined Nnamdi Azikiwe University (NAU), Awka in 1991 and was appointed Honorary Consultant Chemical Pathologist in 1992. In 1993, he won the Science and Technology Agency (STA) of Japan fellowship — the first Nigerian and only African that year to do so — and was named Foreign Researcher of the Year in Japan in 1994, the first African to receive this honour. He became a Professor of Chemical Pathology at age 35 in 1997.

A pioneering researcher, Prof. Ahaneku contributed to lipid and lipoprotein metabolism studies and HDL-Cholesterol quantification techniques. He has 106 scientific publications in high-impact journals.

Administratively, he served as Deputy Vice-Chancellor (Academic) at NAU (2010–2014) and the 5th Vice-Chancellor of NAU (2014–2019). He is the pioneer Vice-Chancellor of the National University of Science and Technology, Abuja.

Prof. Ahaneku holds numerous fellowships and serves on several national and international boards. He is married to Professor Gladys Ifesinachi Ahaneku and blessed with five children.

DEAN OPENING REMARK

PROF. FATIMAH ABDULKAREEM

DEAN'S SPEECH AT THE OPENING CEREMONY OF INAUGURAL INTERNATIONAL CONFERENCE OF THE FACULTY OF BASIC CLINICAL SCIENCES (FBCS)

PROTOCOL

The Honourable Minister of Education,
Honorable Minister of State for Health
The Honourable Commissioner for Health, Lagos State,
Our Vice-Chancellor, University of Lagos,
The Provost, College of Medicine,
Distinguished guests, partners, alumni, colleagues, students, ladies and gentlemen—
Good morning.

Today is a defining moment in the life of our Faculty, our College, and indeed our nation's scientific future. It is with profound honour and gratitude that I welcome you to the Opening Ceremony of the **Inaugural International Conference of the Faculty of Basic Clinical Sciences**, College of Medicine of the University of Lagos.
This is not just another academic gathering. This is the unveiling of a vision.
A declaration of intent. A bold step into the future.

A FACULTY BORN FOR IMPACT

The Faculty of Basic Clinical Sciences consists of 5 departments:
1. Anatomic & Molecular Pathology
2. Clinical Pathology
3. Clinical Pharmacology
4. Haematology & Blood Transfusion and
5. Microbiology & Parasitology

It was formally established in 2025 with a clear and compelling purpose:
to become Africa's most impactful engine of biomedical discovery.
We were created to bridge the gap between laboratory science, clinical medicine, and public health impact. We were created to ensure that scientific discovery translates into lives saved, diseases prevented, and systems strengthened. We were created to lead.
Although we are young, we stand on decades of institutional excellence strong departments, brilliant minds, and a legacy of research that has shaped Nigeria's health landscape.

WHY THIS CONFERENCE MATTERS

Our theme
"Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insights for Patient-Centered Care"— captures the very essence of our mission.

After an impressive outing yesterday for Community Engagement and Free Medical Outreach to connect the gown with the town, we have, from earlier this morning through tomorrow brought together clinicians, scientists, policymakers, industry leaders, and global partners to explore the future of diagnostics, therapeutics, AI-driven medicine, antimicrobial stewardship, and translational science.

This conference is our first major public demonstration of who we are becoming:
A Faculty that is globally connected, locally relevant, and future-focused in line with the future-ready agenda of our able Vice chancellor who incidentally is also a member of this faculty.

Our Strategic Direction: A Faculty with a North Star

At our inaugural academic retreat (which held barely within one month of our existence), we adopted a shared ambition that guides everything we do:
"To make CMUL's Faculty of Basic Clinical Sciences the most impactful, innovative, and globally recognized engine of biomedical discovery in Africa."

This is not rhetoric. It is a commitment.

A commitment to excellence in knowledge creation.
A commitment to relevance in solving Africa's health challenges.
A commitment to sustainability—attracting the funding, partnerships, and talent needed to thrive.

We have built committees, structures, and systems that reflect global best practice. We are producing new postgraduate programs that will solve Nigerian health problems.
We have over **30 active funded projects**, multi-million-dollar multi-institutional international collaborations, and flagship strengths in cancer genomics, clinical trials, infectious diseases, maternal health, AI diagnostics, and antimicrobial resistance.

Thus, we are not starting from zero. We are scaling a proven ecosystem.

A Call to Partners: This Is Our Moment

Distinguished ladies and gentlemen, there are moments in the life of an institution when bold partnerships redefine its future.

This is one of those moments.

Africa faces a dual burden of disease rising non-communicable diseases and persistent infectious diseases yet remains underrepresented in genomic research, drug development, and clinical trials. With changes in the world order and international politics, international grants, are dwindling. We cannot afford to wait for others to solve our problems. We must build the capacity to solve them ourselves.

And that is why today, with humility and conviction, I stand before you to make a historic announcement.

THE ASK: Launch of the ₦500 MILLION FBCS ENDOWMENT FUND

Today, we want to formally unveil the launch of:

₦1 Billion Faculty of Basic Clinical Sciences Endowment Fund for research advancement, infrastructure, innovation, and capacity development.

This endowment will support:

- A Faculty Research & Innovation Fund
- A National Biobank & Tissue Repository
- A Digital Pathology & AI Diagnostics Laboratory
- A Centre for Cancer Genomics & Precision Medicine
- A Sickle Cell & Chronic Disease Research Hub
- A Maternal & Child Health Intervention Centre
- A Malaria and Neglected Tropical Disease Research Fund
- Student scholarships, prizes, and postgraduate fellowships
- And the next generation of African scientists and innovators

This is not an expense. It is an investment **in Nigeria's scientific sovereignty, in Africa's health security, and in the future of our children.**

A Legacy Beyond Buildings

As the Foundation Dean, I am deeply aware that my time in this office is finite, but legacy is not measured in tenure. Legacy is measured in what endures. I want those who come after me to inherit a Faculty with strong foundations, global visibility, and sustainable funding. I am developing a template for innovations and sustainability.
A Faculty where ideas flourish, discoveries emerge, and lives are transformed.

And so today, I invite:

Government agencies, Philanthropists, Corporate organizations, Alumni, Development partners, and friends of the Faculty to join us in building something that will outlive all of us.

Closing: A Future We Build Together

Honourable Minister, His Royal majesty, madam Vice chancellor, the provost and management, distinguished guests, colleagues, and partners.

This conference is not just an event.
It is a beginning.
A beginning of deeper collaboration.
A beginning of scientific leadership.
A beginning of a faculty that will shape the future of healthcare in Africa.

Let us seize this moment.
Let us build boldly.
Let us invest generously.
Let us create a legacy that generations will celebrate

Together, we can build a faculty that not only advances science but transforms lives for generations to come.

Before I close, I want to sincerely thank the Chair, Co Chairs, and all Subcommittee Chairs—many of whom are proud alumni of this great College—for their outstanding work in putting this conference together. My deep appreciation also goes to our University/CMUL Management and distinguished VIPs for their unwavering support; to our sponsors, partners, and collaborators, especially **HBA**, our implementing partner; to our esteemed speakers and abstract presenters; awardees; and to all faculty members for your commitment and presence.

Thank you all. May you continue to flourish, excel, and prosper in your chosen fields. God bless you richly.

Thank you, and welcome to the conference.

Professor Fatimah B. Abdulkareem, MBBCh, MD, FMCPath, FNAMed

FBCS CONFERENCE 2026

THEME
Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insights for Patient-Centered Care

CONFERENCE CHAIR WELCOME SPEECH

PROF. TITILOPE ADEYEMO

FNAMed, FAMedS

Distinguished Vice-Chancellor of the University of Lagos,
Esteemed Provost of the College of Medicine,
Honourable Dean of the Faculty of Basic Clinical Sciences,
Our Keynote Speakers and Guest Lecturers,
Heads of Departments within our Faculty,
Colleagues and Distinguished Academics from the College of Medicine and beyond,
Our Esteemed Alumni and Professional Colleagues in Practice,
Ladies and Gentlemen.

It is my distinct honour and privilege to welcome you all to this historic gathering the **Inaugural Conference of the Faculty of Basic Clinical Sciences.** Today is not just a date on the calendar; it is a defining moment in our academic journey, a foundation stone laid for what we hope will become a lasting tradition of scholarly excellence.

To our distinguished guests who have travelled from far and wide to be with us, we thank you sincerely for sharing this milestone with us. Your presence here underscores the importance of this event, not just for our Faculty, but for the broader medical and scientific community.

Why this Conference? Why Now?

The Faculty of Basic Clinical Sciences stands at a critical intersection, a bridge between the fundamental principles of medical science and the frontlines of clinical practice. In an era of rapid technological advancement, genomic medicine, and data-driven healthcare, our role has never been more crucial.

This inaugural conference is born from a recognition that our work in Pathology, Pharmacology, and Medical Microbiology is the very bedrock upon which clinical medicine is built. It is a celebration of the why behind the how of medical practice.

The Theme of Our Conference

The central theme of our gathering is "Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insight for Patient-Centred Care". This theme speaks directly to our core mission: to ensure that the discoveries we make in our laboratories, the insights we gain in our classrooms, and the hypotheses we test in our research directly translate into better health outcomes for our patients and our communities.

The Goal of Our Gathering

Over the next two days, we are poised to engage in a robust exchange of ideas. Our programme is designed to:

1. **Showcase Excellence:** Highlight the cutting-edge research being conducted right here in this Faculty and across our partner institutions.
2. **Foster Collaboration:** Create a platform for scientists, clinicians, and researchers to forge new partnerships that transcend disciplines.
3. **Inspire the Next Generation:** Provide our students and young researchers with exposure to the frontiers of medical science and the mentors who shape it.
4. **Address National and Global Health Challenges:** Focus our collective intellect on the pressing health issues facing our nation, from infectious diseases to non-communicable epidemics, through the lens of basic clinical science.

As we listen to our distinguished speakers, review the abstracts presented in our sessions, and engage in vibrant discussions, let us remember the ultimate purpose of our work. We do not study cells, molecules, and physiological systems in a vacuum. We study them to alleviate human suffering, to prolong life, and to improve the human condition.

I extend my deepest gratitude to the Local Organising Committee for their tireless dedication in bringing this vision to life. Your hard work has set a high standard.

To all the presenters, I encourage you to share your findings with confidence and clarity. To our students, I urge you to be curious, ask questions, and absorb the knowledge that surrounds you. You are the future leaders of this Faculty and this profession.

In conclusion, as we commence this inaugural conference, let us do so with a spirit of inquiry, a commitment to excellence, and a collective resolve to push the boundaries of medical knowledge.

It is now my singular honour and pleasure to declare the **Inaugural Conference of the Faculty of Basic Clinical Sciences, College of Medicine, University of Lagos, officially open.**

Thank you, and I wish you all a most fruitful conference.

ABOUT THE FACULTY

FBCS CONFERENCE 2026

THEME
Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insights for Patient-Centered Care

The Faculty of Basic Clinical Sciences represents a forward-looking evolution within the College of Medicine, University of Lagos. While newly established, it is built on decades of excellence in medical education, research, and professional training. The Faculty is committed to advancing healthcare through innovation, translational science, and the integration of research with clinical practice, with a strong focus on improving patient outcomes and strengthening healthcare systems

VISION

To be the leading hub of excellence driving innovation, impactful research, pioneering world-class education and training in basic clinical sciences with local impact and global relevance.

NORTH STAR

To guide one unifying ambition — to make CMUL's Faculty of Basic Clinical Sciences the most impactful, innovative and globally recognised engine of biomedical discovery in Africa.

BANNER
DIAGNOSTICS

We rejoice an facilitate with the management & staff of Lagos University Teaching Hospital, on the 6th Annual Scientific Conference taking place on Wednesday 10th June, 2026 and Thursday 11th June 2026.

We wish you fruitful deliberation

Who we are

Banner Diagnostics International Centre Ltd, was incorporated in 2002 and has since been in the operation of general business management and the sales/marketing of medical diagnostics.

We know that all over the world, governments are placing increased emphasis on medical care and we believe our range of services in blood transfusion and the supply of medical diagnostics are relevant to this agenda.

In the first place, accurate diagnosis of a medical condition means that an appropriate and focused treatment can be implemented quickly, and with visible benefits.

Non-communicable and communicable diseases affect a sizeable percentage of the world's population. For Nigeria and its environs, this means that a sizeable amount of the population suffers. When these diseases are detected in time, proper control can be established, which will allow those affected to lead a normal life as well as enjoy a longer lifespan.

However, if a disease goes undetected or proper control is not established, many medical conditions lay develop into a more serious or life-threatening condition. In addition, costly medical resources which could otherwise be allocated to avoidable conditions would be restricted as a result

The medical services we provide help combat the present situation, the equipment and reagents we use are sourced from world leaders within the field.

WHAT WE DO

1. Blood Screening and Certification Contract with Lagos State Government, Lagos Nigeria

(2004 - Present)

Banner Diagnostics has a private/public joint venture agreement with the Lagos State Government (LASG) Ministry of Health to equip some of the hospitals with world class Elisa equipment/instruments. We manage and operate **4 Blood Screening centers** which are geographically located in Lagos and it's environ taking care of the **18 state Hospitals**.

Apart from these government hospitals, our centers screen blood for a host of **Private Blood Bank** Laboratories in Lagos State and its environs.

The Lagos state Government and Banner Diagnostics laboratory scientists jointly run all test in the centers on daily basis, as stipulated by the state's law. The blood for transfusion is screened for the following tests:

- HIV ag/ab
- Hepatitis B (HbsAg)
- Hepatitis C (HCV)
- Syphilis

It is mandatory for blood to be screened and certified for use in transfusion at all public and private hospitals, clinics and other health establishments in the state

It is worthy to mention that all our Brand Test Reagent Kits are **"WHO prequalified"** as well as bearing **"CE Mark"**

2. We are in active business collaboration on blood screening with some federal tertiary hospitals.

- Lagos University Teaching Hospital (LUTH) Idi-Araba Surulere, Lagos.
- Obafemi Awolowo University Teaching Hospital, Ile-Ife, Osun State.
- University College Hospital, Ibadan
- Federal Medical Centre, Yenogoa, Bayelsa State

Our Services

Our Services

From the afore-mentioned points, our core services are in:

Medical Diagnostics Supply Services

Blood Transfusion Consultancy Services

Blood Transfusion & Transplant

- Should you require for information regarding any of the above, we shall be delighted to elaborate further

- **IMMUNOHISTOCHEMISTRY (IHC)**

WHY CHOOSE US?

ACCURATE & RELIABLE RESULTS
We ensure precision in every test for confident diagnosis.

ADVANCED TECHNOLOGY
State-of-the-art equipment and cutting edge techniques

EXPERIENCED PROFESSIONALS
Skilled pathologists and scientists with extensive expertise.

TIMELY REPORTING
Fast turnaround time without compromising quality.

QUALITY & INTEGRITY
We adhere to the highest standards in laboratory practice.

FBCS
CONFERENCE 2026

THEME
Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insights for Patient-Centered Care

CONFERENCE AGENDA

DAY 1 TUESDAY, JUNE 23RD, 2026

COMMUNITY ENGAGEMENT
MUSHIN LOCAL GOVERNMENT SECRETARIAT
82/83 PALM AVENUE, MUSHIN, LAGOS STATE

FBCS CONFERENCE 2026
THEME
Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insights for Patient-Centered Care

7:30AM — **Health Screening & Clinical consultation**

10:00AM — **Opening — Community mobilisation, crowd gathering, music**
DJ/MC

10:15AM — **Welcome address by Dean, Faculty of Basic Clinical Sciences**
Prof. Fatimah Abdulkareem

10:25AM — **Remarks by: Hon. Tunbosun Haruna Aruwe, Executive Chairman, Mushin Local Government**
Dr Abdulfatai Olajobi

10:35AM — **Welcome Speech remark by FBCS chair**
Prof Titi Adeyemo

10:45AM — **Overview of outreach agenda and instructions for attendees**
(MC) and Dr Abdulfattah Olajobi, Chair Community engagement

HEALTH EDUCATION & COMMUNITY ENGAGEMENT

11:00AM — **Health Talk**
Faculty members/ Medical Students

11:30AM — **Health Talk**
Faculty members/ Medical Students

12:00PM — **Role-play/Drama**
Community Engagement Committee. Dr Noimot Balogun

12:30PM — **Distribution of health education flyers, booklets & hygiene kits**
Dr Abdulfattah Olajobi & Community outreach Team

1:00PM — **Distribution of mosquito nets (prioritising pregnant women & children)**
Dr Abdulfatah Olajobi & Community outreach Team

1:30PM — **Q&A session with medical personnel**
Prof Fatimah Abdulkareem / MC

MID-DAY BREAK

2:00PM — **Lunch break for volunteers and medical staff**
HBA

3:00PM — **Refreshments/souvenirs distribution for community attendees**
Dr Abdulfattah Olajobi & Community Outreach Team

3:10PM — **Resume clinical services — Afternoon session**
Dr Abdulfattah Olajobi

AFTERNOON CLINICAL CONTINUATION & MEDIA

3:30PM — **Clinical stations continue (consultation, labs, pharmacy)**
All Medical Staff

3:35PM — **Radio/UNILAG FM live coverage segment — community interviews**
Media Team / MC

3:40PM — **Photography & videography for documentation and social media**
HBA/Media Sub Committee

3:45PM — **Final push — priority service for remaining queue**
All Medical Staff

3:50PM — **Wind-down: closing referrals, final drug dispensing, documentation**
Prof Titi Adeyemo

CLOSING CEREMONY

3:55PM — **Closing remarks by Dean**
Prof. Fatimah Abdulkareem

4:00PM — **Appreciation of sponsors, volunteers, and LGA partners**
Prof Fatimah Abdulkareem/Prof Titi Adeyemo/MC

DAY 2 WEDNESDAY, JUNE 24TH, 2026

FBCS CONFERENCE 2026
THEME
Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insights for Patient-Centered Care

CONFERENCE DAY 1
COLLEGE OF MEDICINE UNIVERSITY OF LAGOS (CMUL) IDI-ARABA, LAGOS

8:00 – 9:00AM — **Arrival of Guests**
Participant Registration

9:00 – 9:10AM — **Call to Order & National Anthem**
Dr. Folarin Opawoye, Anchor

PANEL DISCUSSION 1 (9:05 – 10:30 AM)

"From Precision to Personalisation: AI and the Future of Medical Education and Patient Care"
1 Hour Panel | 30 Minutes Q&A. Chair: Dr Simisola Alabi

1 . Prof. Chika Yinka-Banjo	AI Integration Across the University: A University of Lagos Perspective
2 . Dr. Simisola Alabi	Embedding AI in Medical Education: A Roadmap for the College of Medicine
3 . Dr. Nnamdi Orah	Artificial Intelligence in Diagnostic Pathology: Tools, Applications and Future Directions
4 . Pharm. Abimbola Adebakin	AI-Enabled Health Access: Bridging the Gap Between Patients and Care

10:30 – 10:35AM — **Unilag Anthem**
Anchor: IT

WELCOME SPEECH (10:35AM - 11:00AM)

Anchor: MC

1 . Professor Fatimah AbdulKareem Dean, Faculty of Basic Clinical Sciences	**10 mins.**
2 . Professor Ademola Oremosu FAMedS Provost, College of Medicine	**10 mins.**
3 . Professor Folasade Ogunsola, OON,FAS Vice Chancellor, University of Lagos	**10 mins.**

FBCS CONFERENCE 2026
THEME
Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insights for Patient-Centered Care

KEYNOTE PRESENTATION (11:00 – 11:30 AM)

"Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insight for Patient-Centered Care" ***Chair: Professor Butali***

1 . Prof. Joseph Ahaneku — VC, National University of Science and Technology, Abuja (NUSTA)

11:30 – 11:35AM

Unveiling of Faculty Journal by Professor Folasade Tolulope Ogunsola, OON, FAS Vice-Chancellor, University of Lagos

Anchor: Prof Titilope Adeyemo, Editor in Chief

REMARKS AND GOODWILL MESSAGES (11.35AM - 12.10PM)

Anchor: MC

1 .	**HRM Oba (Prof.) Saka Matemilola** The Olowu of Owu Kingdom **Oba's Blessing**	**5 mins.**
2 .	**Njide Ndili** President, Healthcare Federation of Nigeria	**3 mins.**
3 .	**Dr. Abiola Adebutu-Olorode** CMD, Diamed	**3 mins.**
4 .	**Dr. Tolulope Adewole** MD/CEO, MedServe	**3 mins.**
5 .	**Dr. Olufunke Fasawe** Vice President, Clinton Health Access Initiative (CHAI)	**3 mins.**
6 .	**Prof. Wasiu Lanre Adeyemo, FAS** CMD, Lagos University Teaching Hospital	**3 mins.**
7 .	**Prof. John Obafunwa** DG, Nigerian Institute for Medical Research (NIMR)	**3 mins.**
8 .	**Prof. Akin Abayomi** Honorable Commissioner of Health, Lagos State	**5 mins.**

MINISTERIAL SPEECHES

Anchor: MC

1 .	**Dr Iziaq Salako** Honorable Minister of State for Health and Social Welfare	**10 mins.**
2 .	**Dr Tunji Alausa, CON** Honorable Minister for Education	**10 mins.**

12:15 – 12:30PM **Opening & Tour of Exhibition Area**
Chaired by Prof Titi Adeyemo, FBCS Conference Chair

PANEL DISCUSSION 2 (12:30 – 2:00 PM)

"Bridging Bench to Bedside in Women's Cancers — Advances in Early Detection and Precision Medicine" ***Sponsored by Marcelle Ruth | Chair: Prof. Modupe Elebute-Odunsi | 1 Hour Panel | 30 Minutes Q&A***

1 . Prof. Solomon Rotimi	Multi-Omics and AI-Driven Biomarker Discovery for Early Detection of Women's Cancers
2 . Dr. Damola Omogbehin	Personalized Therapeutics in Breast and Gynaecological Cancers: From Molecular Profiling to Tailored Treatment Pathways
3 . Mrs. Yemisi Osakwe	Data-Driven Care: Leveraging Cancer Registries for Early Detection and Better Outcomes in Women's Cancers
4 . Prof. Modupe Elebute-Odunsi	Building Africa's Oncology Ecosystem: Lessons from Marcelle Ruth Hospital

2:00 – 2:30PM **LUNCH BREAK**

2:30 – 2:50PM **ABSTRACT POSTER PRESENTATION**

PANEL DISCUSSION 3 (2:50 – 4:20 PM)

"Antimicrobial Resistance" ***Chair: Prof. Oyin Oduyebo***

1 . Prof. Samuel Sunday Taiwo	The Hidden Burden of Misdiagnosis in Africa: Implications for AMR and Patient Safety
2 . Prof. Rosemary Audu	Strengthening Diagnostic Stewardship: Ensuring the Right Test, for the Right Patient, at the Right Time
3 . Dr. Phillip Oshun	LUTH Experience in Global Recognition in Antimicrobial Stewardship: GAMSAS Accreditation by the British Society for Antimicrobial Chemotherapy
4 . Prof. Ifeoma Udenze	Point of Care Diagnostics: Closing the Gap Between Clinical Suspicion and Accurate Diagnosis

DAY 3 (JUNE 25TH, 2026)

FBCS CONFERENCE 2026
THEME
Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insights for Patient-Centered Care

CONFERENCE DAY 2
COLLEGE OF MEDICINE UNIVERSITY OF LAGOS (CMUL) IDI-ARABA, LAGOS

8:00 – 8:55AM — **Arrival of Guests**

9:00 – 10:00AM — **Oral Abstract Presentations**
Chair: Prof A.S. Akanmu

PANEL DISCUSSION 4 (10:05 – 11:30 AM)

The path to effective control/elimination of malaria and neglected tropical diseases
1 Hour Panel | 30 Minutes Q&A Chair: Dr. Olufunke Fasawe
Sponsored by: CENtre for Transdisciplinary Research in mALaria and Neglected Tropical Diseases
Host to: ANDI Centre of Excellence for Malaria Diagnosis

1 . Dr. Olufunke Fasawe Keynote Speaker	The role of NGOs in improving health outcomes in Nigeria and Africa: Lessons from CHAI
2 . Prof. Wellington Oyibo	The path to effective control/elimination of malaria and neglected tropical diseases
3 . Dr. Eddy Agbo	The UMT Journey Integrating Science, Markets, and Patient-Centered Impact
4 . Dr. Prosper Oyibo	Beyond Conventional Refractive Limits: The Case for Fourier Ptychographic Microscopy in Africa's Diagnostic Future
5 . Prof. Kayode Ojo	Transmission-Blocking Antimalarial Therapies: A New Approach to Malaria control
6 . Dr. Gbolahan O. Oduselu	De Novo Molecular Design and Bioactivity Prediction of Novel Hexahydroquinolines as Transmission Blocking PfCDPK4 Inhibitors
7 . Dr. Godswill A. Iboma	Pharmacologic Monitoring of Plasma Levels of Praziquantel in a Therapeutic Efficacy Testing Study in Persons Treated for Schistosomiasis in the Federal Capital Territory (FCT), Abuja, Nigeria
8 . Dr. David Akeju	Current Practices in the Diagnosis and Treatment of Malaria by Patent and Proprietary Medicine Vendors (PPMVs) in Lagos State, Nigeria

11:30 – 11:40AM **Music and Exercise Break**

11:40 – 12:40PM **Oral Abstract Presentations II**
Chair: Prof. Eliane Azinge

PASSING THE BATON (12:40PM - 1:40PM)

Mentoring future physician scientists: Lessons from retired Professors
1 Hour Panel | Anchor: Professor Fatimah Abdulkareem

1 . Prof. Ibironke Akinsete

2 . Prof. Adebayo Afonja, OON

3 . Prof. Stephen Elesha

1:40PM – 1:50PM **Sponsors Acknowledgement**
Prof Titilope Adeyemo

1:50PM – 2:00PM **Vote of Thanks & Closing Remarks**
Conference summary, vote of thanks and future plans
Anchor: Professor Abdulkareem and Professor Adeyemo

DAY 3 THURSDAY JUNE 25TH, 2026

FBCS CONFERENCE 2026

THEME
Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insights for Patient-Centered Care

GALA DINNER & AWARDS NIGHT
WATERCRESS HOTELS 48 ORITSHE STREET, OFF BALOGUN ST, ALLEN, IKEJA, LAGOS

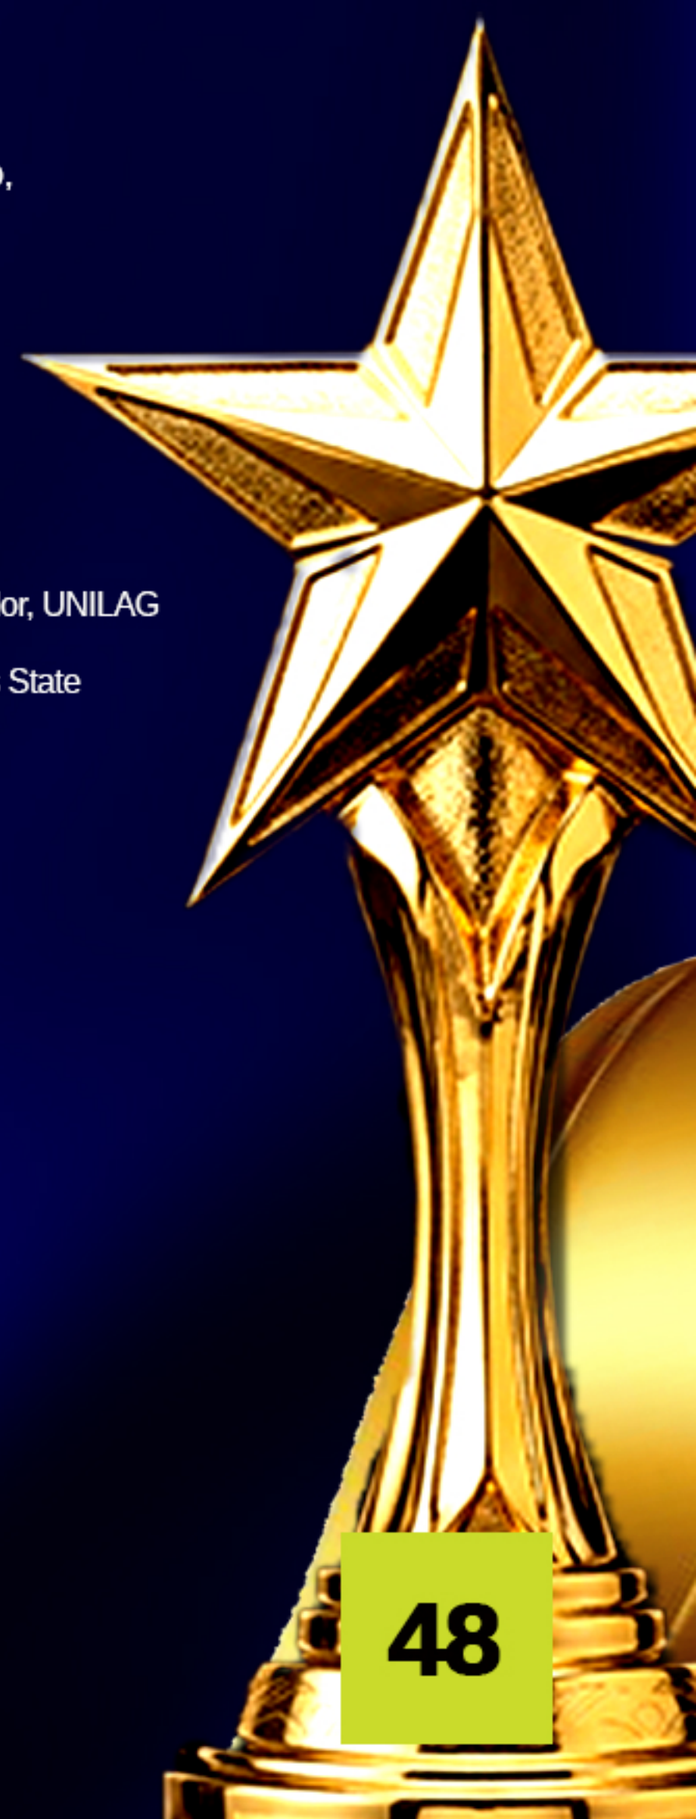

5:30 – 6:30PM	**Arrival & Red Carpet**
7:00 – 7:10PM	**Call to Order**
7:10 – 7:20PM	**Master of Ceremonies**
7:20 – 7:30PM	**Introduction of Guest**
7:30 – 7:40PM	**Welcome Speech** Prof Titilope Adeyemo, Chair, FBCS Conference
07:40 – 07:50PM	**Special Remarks**

1. Co Host: Prof. Ademola Ayodele Oremosu FAMedS The Provost, CMUL
2. Chairperson: Dr Pamela Ajayi Chairman, The Bridge Clinic

7:50 – 7:55PM	**Spoken Word Performance**
7:55 – 8:00PM	**Launching of Endowment fund** Anchor: Dean, Prof Fatimah Abdulkareem FBCS Chair, Prof Titi Adeyemo, Chair Partnership Chair, Dr Oladapo Asiyanb
8:00 – 8:20PM	**Goodwill Speeches**

1. Dr Fatimah Habeebu-Adeyemi Chair, Award &Dinner Sub Committee
2. Dr. Mrs Taiwo Ipaye Director of Advancement Unit, UNILAG
3. Chief Host: Professor Folasade Tolulope Ogunsola, OON, FAS Vice Chancellor, UNILAG
4. Special Guest of Honour: Dr. Mrs Ibironke Sanwo-Olu First Lady of the Lagos State
5. Co Host Prof. Wasiu Lanre Chief Medical Director, LUTH

8:20 – 8:35PM	**Award Presentation** Anchor: MC
8:35 – 8:40PM	**Cultural Dance Performance**
8:40 – 8:50PM	**Dinner is Served**
8:50 – 9:05PM	**Award Presentation Continues**
9:05 – 9:15PM	**Toast to Faculty of Basic Clinical Sciences** Anchor: Dr. Fatimah Habeebu-Adeyemi
9:20PM	**Closing Remarks & Partner Recognition** Dean FBCS, Prof Fatimah Abdulkareem

Building Africa's Next Generation of Healthcare Leaders

Executive Education.
Global Insight.
Local Impact.

Health Business Academy for Africa

Trusted by healthcare leaders, institutions, and policy stakeholders shaping Nigeria's private health sector.

*All our courses are for clinical and non-clinical staff.

Build Leaders Who Build Institutions

HBA equips healthcare leaders with the intelligence, structure, and executive advantage required to build bankable, scalable healthcare businesses in Nigeria and across Africa.

Why HBA?

- Faculty of proven healthcare CEOs, finance leaders, and policy experts
- Practical, case-driven executive programmes
- Institutional partnerships shaping sector reform
- A powerful network of healthcare leaders across Nigeria and Africa

Our Offerings:

- Executive Courses & Masterclasses
- Curated Executive Networks
- Healthcare Market Intelligence
- Strategic Advisory
- Corporate & Leadership Retreats

HRM (PROF). SAKA MATEMILOLA
OLOWU OF OWU KINGDOM

His Royal Majesty, Professor Saka Adelola Matemilola, PhD, FNSE, Oluyalo OTILETA VII, is the 14th Olowu of Owu Kingdom, Abeokuta, Ogun State, Nigeria. Before ascending the throne, Kabiyesi built a distinguished career as an engineer, scholar, and philanthropist. He earned a first-class honours degree and MSc in Mechanical Engineering from the University of Ibadan, then a PhD in Applied Mechanics from the University of Cambridge.

His career bridged academia and industry: starting as a Mechanical Engineer at the Oyo State Ministry of Works & Transport, he taught at the University of Ibadan and King Fahd University of Petroleum & Minerals in Saudi Arabia, then served as a Research Associate at Cambridge and Senior Research Fellow at Southampton. Back in Nigeria, he worked with Shell Petroleum Development Company and FIRST Exploration & Production Company. He has authored over 30 technical publications and served as a visiting scholar at institutions including the University of Benin, University of Port Harcourt, and the African University of Science and Technology.

Through the AdeOba Empowerment Foundation, Kabiyesi drives initiatives in education, healthcare, and small-business empowerment. He also champions youth sports development. A recipient of numerous awards, His Majesty is a devoted family man blessed with children.

Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insights for Patient-Centered Care

FACULTY OF BASIC CLINICAL SCIENCES LIFETIME ACHIEVEMENT & LEGACY AWARD

PROF. ABDULFATTAH BIOLA MABADEJE

Professor Abdul Fattah Biola Mabadeje is a pioneering Nigerian physician and academic renowned for his contributions to clinical pharmacology and nephrology. Born in 1937 in Ijebu-Ode, he studied medicine at University College, Ibadan, graduating in 1963, then trained in the UK, earning his MRCP in 1967 and a Diploma in Clinical Pharmacology in 1968.

Returning to Nigeria in 1968, he joined the University of Lagos and LUTH, rising to Professor of Clinical Pharmacology by 1979. He helped establish LUTH's Dialysis Centre in 1981, leading it until his retirement in 2001, and held research roles at institutions in the US and UK.

He shaped national health policy through roles on the WHO-ISH Guidelines Subcommittee, Nigeria's National Drug Formulary review, and the rollout of Artemisinin Combination Therapy for malaria. He led the West African Society for Pharmacology and the Nigerian Hypertension Society, and is a Fellow of several medical colleges.

A prolific author and lecturer, he wrote "How to Live Longer Despite Hypertension" and received the 2008 Olle Hansson Award. He also co-founded the Islamic Medical Association of Nigeria and remains active in faith-based community service. He is married to Professor Saida Ajile Mabadeje, with children, grandchildren, and a great-grandchild.

FACULTY OF BASIC CLINICAL SCIENCES LIFETIME ACHIEVEMENT & LEGACY AWARD

PROF. IBIRONKE AKINSETE

Professor Ibironke Akinsete is a distinguished Nigerian Haematologist with qualifications including MB ChB (Aberdeen, 1963), FMC Path (1978), MD Aberdeen (1984), FWACP (1986), FAS (2006), and FNA Med (2020). She retired as Professor of Hematology and Blood Transfusion at the College of Medicine, University of Lagos in 2003.

A prolific researcher, she supervised doctoral dissertations, published in peer-reviewed international medical journals, and co-authored medical books. She served as Pioneer Chairman of the National Action Committee on AIDS (NACA) and Senior Special Assistant to President Olusegun Obasanjo on HIV/AIDS (2000–2003), securing support from the World Bank, USAID, UNAIDS, and the Bill & Melinda Gates Foundation.

She chaired the Lagos State Blood Transfusion Committee (2005–2011) and pioneered PathCare Laboratories (now Synlab Nigeria), the first ISO 15189-accredited laboratory in West Africa. As Pioneer President of the Society for Women & AIDS in Africa, Nigeria Chapter, she received the 2017 Nigerian Healthcare Excellence Award.

A trustee of APIN Public Health Initiatives and board member of Lakeshore Cancer Center, she remains active in numerous medical associations. She was married to the late Professor Alaba Akinsete and is blessed with many children and

FACULTY OF BASIC CLINICAL SCIENCES LIFETIME ACHIEVEMENT & LEGACY AWARD

PROF. TOLU ODUGBEMI. OON. NNOM

Professor Tolu Odugbemi (OON, NNOM, Hon. D.Sc., Ph.D., MD) was born on 30th January 1945 in Ado-Ekiti, Nigeria. He studied Medicine at the University of Lagos, graduating with a B.Sc. (Hons) in 1970 and MB, BS in 1972. He later earned a Ph.D. from the University of Sheffield (1978) and an MD from the University of Lagos (1982).

A distinguished medical microbiologist and parasitologist, he held numerous academic leadership roles, including Professor and Head of Medical Microbiology at both the University of Ilorin and University of Lagos, Provost of the College of Medicine (UNILAG), and Vice-Chancellor of both UNILAG (2007–2010) and OAUSTECH (2010–2015).

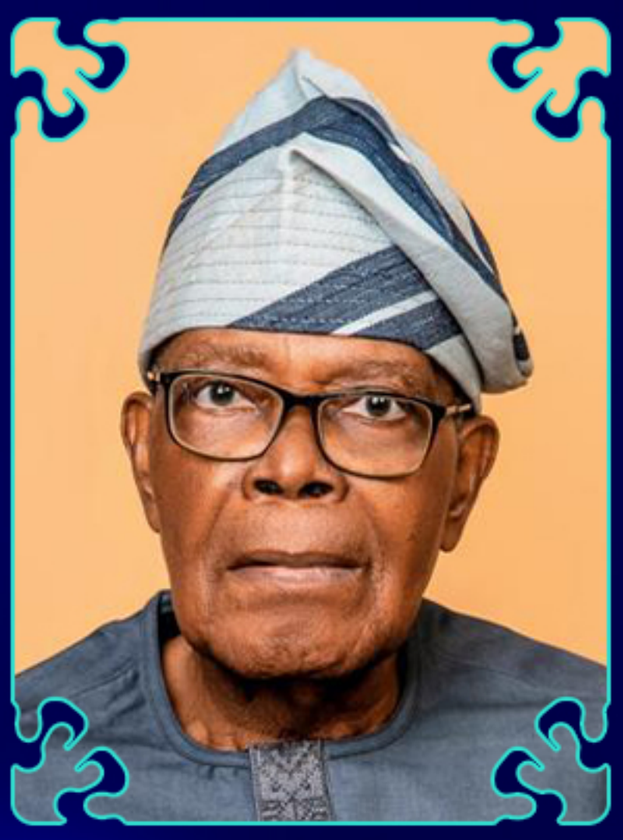

He is a Fellow of the Nigerian Academy of Medicine, Nigerian Academy of Science, and Royal College of Pathologists (UK), among other fellowships. His research spans sexually transmitted diseases, antimicrobial resistance, and medicinal plants, with over 250 publications and three notable books on Nigerian medicinal plants.

Professor Odugbemi has received Nigeria's highest academic honour, the Nigerian National Order of Merit (NNOM), the Officer of the Order of Niger (OON), and an Honorary D.Sc. from the University of Sheffield (2011).

FBCS
CONFERENCE 2026

THEME
Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insights for Patient-Centered Care

FACULTY OF BASIC CLINICAL SCIENCES LIFETIME ACHIEVEMENT & LEGACY AWARD

PROF. STEPHEN OLAFIMIHAN ELESHA

Professor Stephen Olafimihan Elesha is a distinguished Nigerian academic physician and specialist in Anatomic (Morbid) Pathology with an extensive career spanning clinical practice, medical education, research, and institutional leadership. Trained at the University of Lagos and further specialized in pathology and renal immunopathology in Canada, he holds multiple professional fellowships including the College of American Pathologists, the West African College of Physicians, and the National Postgraduate Medical College of Nigeria.

He served the College of Medicine, University of Lagos (CMUL) across progressive academic and leadership roles from Lecturer to Professor of Morbid Anatomy, while also leading the department and contributing to governance through committee chairmanships, admissions, academic affairs, student affairs, housing, and postgraduate examinations. Professor Stephen Elesha served as the 11th Provost of the College of Medicine University of Lagos from Jan 2005 to December 2008.

Professor Elesha's research and publication portfolio reflects longstanding contributions to histopathology, renal pathology, cancer pathology, infectious disease pathology, paediatric pathology, maternal mortality, and clinicopathological studies relevant to Nigeria and Africa. His work includes collaborations across clinical and biomedical disciplines and a substantial body of peer-reviewed publications that advanced understanding of disease patterns and pathology practice in the region.

Overall, he is recognized as a senior medical scholar and pathology leader whose career combines clinical excellence, academic mentorship, institutional stewardship, and impactful research in laboratory medicine and pathology.

FBCS CONFERENCE 2026

Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insights for Patient-Centered Care

FACULTY OF BASIC CLINICAL SCIENCES LIFETIME ACHIEVEMENT & LEGACY AWARD

PROF. ADEBAYO AFONJA OON

Professor Adebayo Afonja, born December 15, 1937, in Oyo, Nigeria, is one of Africa's most distinguished medical scientists, physicians, and public health administrators, with over five decades of service to medical science and education.

Educated at Igbobi College, Lagos, he obtained his medical degree from the University of St. Andrews, Scotland, in 1967. He began his career at Lagos University Teaching Hospital (1968–1974), also serving with the Nigerian Army in 1969. His nearly three-decade tenure at the College of Medicine, University of Lagos (1975–2002) cemented his legacy in academic medicine.

Professor Afonja served as Executive Chairman of the Oyo and Osun States Health Council (1984–1987) and Member of the University of Ibadan Council (1985–1990). He was President of the International Federation of Clinical Chemistry (Nigeria) and Editor-in-Chief of the Nigerian Postgraduate Medical Journal (2003–2014).

Among his honours are the Distinguished Fellowship of the Medical College (2013), the national award of Commander of the Order of the Niger (CON), and the National Postgraduate Medical College's Lifetime Accomplishment Award (2022). He has also served as Medical Adviser to the Diocese of Lagos Mainland and completed a WHO engagement in Clinical Chemistry Quality Control.

DISTINGUISHED SERVICE TO THE FACULTY AWARD

PROF. SUNDAY AREMU OMILABU

Prof. Sunday Aremu Omilabu is a Professor of Medical Virology at the College of Medicine, University of Lagos (CMUL), Hospital Virologist at Lagos University Teaching Hospital (LUTH), and Consultant Virologist to the Federal Ministry of Health, Nigeria. He holds a B.Sc from Obafemi Awolowo University and an M.Sc and Ph.D in Virology from the University of Ibadan. He is an Alexander von Humboldt/Georg Forster Fellow and DAAD Visiting Research Fellow at the Bernhard Nocht Institute for Tropical Medicine, Hamburg, Germany.

Prof. Omilabu is the pioneer Dean of the Faculty of Basic Medical Sciences, Lead Investigator of the Virology Research Unit, and Director of the Central Research Laboratory, CMUL. He heads the Centre for Human and Zoonotic Virology (CHAZVY) — Nigeria's National Reference Laboratory for Viral Haemorrhagic Fevers and a WHO-Afro designated laboratory for Ebola Virus Disease.

His most notable contributions include confirming Nigeria's index Ebola case in 2014, enabling the country to be declared EVD-free by WHO, and making Nigeria's first COVID-19 diagnosis on February 27, 2020. With over 120 peer-reviewed publications, his career mission remains "research for the betterment of mankind."

FBCS CONFERENCE 2026

THEME
Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insights for Patient-Centered Care

DISTINGUISHED SERVICE TO THE FACULTY AWARD

PROF. ELAINE AZINGE

Professor Elaine Chinyelu Azinge is a distinguished Professor of Clinical Pathology at the College of Medicine, University of Lagos, where she has served with excellence for four decades. A seasoned Chemical Pathologist, she has contributed profoundly to both the University and the Lagos University Teaching Hospital, shaping clinical practice, academic standards, and the next generation of medical professionals.

As she approaches her retirement on 24 July 2026, Professor Azinge remains deeply committed to the work that has defined her career. Though stepping away from formal service, she is not tired her passion for classroom teaching, mentorship, and nurturing young minds continues to inspire her daily. She is dedicated to guiding students and young professionals across the many spheres in which she has operated, sharing her wisdom, experience, and unwavering belief in excellence.

Warm, principled, and purpose-driven, Professor Azinge embodies a lifelong devotion to learning, service, and the advancement of medical education.

- Hemoglobin
- Urinalysis
- Stool Microscopy
- Malaria Parasite Test (Where Indicated)
- Medical Report With Recommendations

Secondary School Package (Ages 11–18)

- Full Medical Examination
- Growth, BMI & Blood Pressure Assessment
- Vision & Hearing Screening
- Hemoglobin
- Urinalysis
- Stool Microscopy
- Hepatitis B Screening (Optional)
- Sickle Cell Genotype Confirmation (Optional)
- Fitness for School Activities & Sports Report

A comprehensive school health programme delivered by Cerba Lancet Nigeria — from preschool screening to sick bay management.

Cerba Lancet Nigeria

HEALTHY STUDENTS, STRONGER SCHOOLS, CONFIDENT PARENTS.

FBCS CONFERENCE 2026

THEME
Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insights for Patient-Centered Care

AWARDS OF RECOGNITION

PROF. TITI ADEYEMO
Chair of the Conference Planning Committee

DR. OLAYEMI DAWODU
Conference Co-Chair

DR. ABDULWASIU BUSARI
Conference Co-Chair

PROF MODUPE ELEBUTE-ODUNSI
Fund Raising Chair

PROF. AZEEZ BUTALI
Programme Chair

DR OLADAPO ASIYANBI
Partnership & Stakeholder Engagement Chair

DR LAWAL BAKARE
Comunication & Media Chair

DR PHILIP OSHUN
Logistics & Operations Chair

DR ABDULFATTAH OLAJOBI
Community Engagement Chair

DR FATIMAH HABEEB-ADEYEMI
Dinner & Awards Chair

PROF OLUMUYIWA SALU
Abstract Chair

DR NNAMDI ORAH
Student Engagement Chair

ABSTRACTS FOR FBCS 2026 SCIENTIFIC CONFERENCE

FBCS CONFERENCE 2026

THEME
Precision in Practice: Integrating Diagnostics, Therapeutics, and Clinical Insights for Patient-Centered Care

ORAL PRESENTATION

FBCS Conf 2026 OAb001: Bridging the Gap: Precision Diagnostics as a Framework for Addressing Patient Care Deficiencies in Nigeria - Dede, K.K.

FBCS Conf 2026 OAb002: LNP-Delivered CRISPR-Cas9 Modulated AKT/P13K/MTOR and PTEN Pathway Components In BCRP Gene Knock Out of Mice Breast Tumorigenesis Treated with Curcumin and Doxorubicin - Minari, J.B., Udenze, I.C., Aribisala, P.O., Onakoya O.O, Dada, A.O., Ozonwoye, O.V., Olomiyete-Ekujumi F., Oladimeji, R.O., Olomosaye, T.O., Bello, O.K., Obiogwu, D.N., Lawal, A.H., Ogunlola, S.K., Tabiti, F.O., Omitogun, A.B., Dairo, H.K

FBCS Conf 2026 OAb003: The Influence of Gut Microbiota Diversity on Pregnancy Outcome Among Women Living with HIV in Lagos, Nigeria - Oraegbu J.I., Amoo O.S., Salu O.B., Onuigbo T.I., Ikuejamoye B.O., Obichere P., Adebowale F., Umoh E.U., Jokotoye F., Mebaghandun V., Abiodun I., Omilabu S.A.

FBCS Conf 2026 OAb004: Diagnostic Cut-Offs, Hormone Receptor Reporting, and Breast Cancer Subtypes in Kenya - Muruthi C.W., Cheruiyot I., Munguti J., Sayed S.

FBCS Conf 2026 OAb005: Nasal Carriage of Methicillin Resistant Staphylococcus Aureus (MRSA) Among Clinicians at the Lagos University Teaching Hospital (LUTH) - Fasinu G. and Osuagwu C.S.

FBCS Conf 2026 OAb006: Pediatric Kaposi Sarcoma in the setting of the HIV epidemic – a case report and review of literature - Orah N.

FBCS Conf 2026 OAb007: Vitamin D Receptor BsmI and FokI Polymorphisms Are Associated with Bone Mineral Density and Osteonecrosis in Nigerian Sickle Cell Disease Patients - Adiat A.L., Osikomaiya B.I. and Adeyemo T.A.

FBCS Conf 2026 OAb008: Serum Lactate Dehydrogenase Correlates Strongly with Albuminuria and Identifies Sickle Cell Patients at Risk for Overt Nephropathy - Ogunnaike-Quaye T.B., Osunkalu V.O., Adeyemo T.A.

FBCS Conf 2026 OAb009: Comparative Performance Characteristics of an In-House and a Commercially Available Mpox Real-Time PCR Assay in Lagos State, Nigeria - Salu O.B., Olusoga E.E., Anyanwu R.A., Orenolu M.R., Abdullah M.A. and Omilabu S.A.

FBCS Conf 2026 OAb0010: Diagnostic Beyond the Triple-Negative Narrative: Immunohistochemical Diversity of Breast Carcinoma in a Private Laboratory in Nigeria - Dawodu O., Obiajulu F.J., Ibezimuoh P., Ubi B. and Wemimo R.M.

POSTER PRESENTATION

FBCS Conf 2026 AbP001: Precision Malaria Prevention in Pregnancy: Determinants of IPT Uptake in TBA-Led Care in Rural Lagos - Busari A.A., Hammed W.A., Olayemi S.O.

FBCS Conf 2026 AbP002: Prevalence of Mental Disorders and Barriers to Utilisation of Mental Health Services among Medical Students at UNILAG - Obinna-Chukwu C.E, Olufela E.O., Shopeyin-Dosunmu A.O., Oselukwue J.I.

FBCS Conf 2026 AbP003: Comparative Analysis of Biofilm Formation in Carbapenem-Resistant and Carbapenem-Susceptible Klebsiella pneumoniae Clinical Isolates from a Tertiary Hospital in Nigeria - Otaru B.M., Victoria A., Oladele R.A.

FBCS Conf 2026 AbP004: Clinical Pathology Request Form Audit at LUTH: Documentation Gaps and Their Implications for Patient Safety - Oteniya O.T., Udenze I.C., Kalu K.K., Abubarka R.A.

FBCS Conf 2026 AbP005: Serum Homocysteine, Folate, And Vitamin B12 Levels In Two Representative Groups of Elderly in Lagos - Davies N.O, Iyere E.O, Ogbenna A.A.

FBCS Conf 2026 AbP006: Audit of Blood Request Forms Completion, Blood Components Demand and Utilization Patterns in Two Tertiary Hospitals in Lagos - Davies N.O, Adeyemi A.T, Oyedeji O.A

FBCS Conf 2026 AbP007: Precision Diagnostics and Antimicrobial Stewardship in the Management of Infectious Diseases: A Patient-Centred Approach in Nigeria - Godwin V.

FBCS Conf 2026 AbP008: Human Papilloma Virus Knowledge, Its Vaccine Acceptance and Hesitancy Among Parents/Guardians of Adolescent Females in Surulere Local Government Area of Lagos State - Jinadu O.M., Ladi-Akinyemi T.W., Ogunnowo B.E., Adejimi A.A.

FBCS Conf 2026 AbP009: Carriage and Susceptibility Pattern of Enterococcus species from Hospitalized Adults Patients in Lagos University Teaching Hospital - Osuagwu C.S. and Falomo D.O.

FBCS Conf 2026 AbP0010: Susceptibility Profile of Multidrug-Resistant Klebsiella pneumoniae Among Tuberculosis-Suspected Patients in Southwestern Nigeria (Lautech Teaching Hospital) - Adegoke A., Adesiji Y., Taiwo S. and Adeniji T.

FBCS Conf 2026 AbP0011: Distribution of Lipid Profiles in the Nigerian Population: A Multi-State Cross-Sectional Study - Udenze I.C., Iyen B., Amadi C., Omoyele O, Kuti M.A., Obe O.A., Qureshi N., Akyea R.K.

FBCS Conf 2026 AbP0012: Evaluation of Internal Quality Control Performance of Some Emergency Analytes on Chemistry Autoanalyzer, Mindray BS-240, At the Lagos University Teaching Hospital Main-Laboratory - Kalu K.K., Udenze I.C., Oteniya O.T., Abubakar R.A.

FBCS Conf 2026 AbP0013: Phenotypic Detection of Carbapenemase Production in Klebsiella Isolates from Clinical Samples at Lagos University Teaching Hospital (LUTH), Lagos State, Nigeria - Egwuatu A.N. and Osuagwu C.S.

FBCS Conf 2026 AbP0014: Histopathological Spectrum of Meningioma in a Tertiary Care Facility in Southwest Nigeria - Okongwu C.C., Olaofe O.O., Adefidipe A.A., Ewoye E.E., Oladele J.O, Pius J.T., Olasode B.J.

FBCS Conf 2026 AbP0015: Prevalence and Antimicrobial Resistance Patterns of Gram-Negative Uropathogens in Pregnant Women Attending Clinic in Lagos University Teaching Hospital - Faniyi M.A. and Osuagwu C.S.

FBCS Conf 2026 AbP0016: Management of Chronic Joint Pain: A Survey of Use of Pharmacological and Non-Pharmacological Interventions Among Residents of Surulere LGA - Ogbonna A.

FBCS Conf 2026 AbP0017: Artificial Intelligence in Clinical Diagnostics: A Systematic Review of Applications in Low- and Middle-Income Countries - Adekunle M.T. and Nnodim P.

FBCS Conf 2026 AbP0018: Comparative Analysis of mecA-Mediated Methicillin Resistance and Panton–Valentine Leukocidin Virulence Factors in Staphylococcus aureus Isolated from Nasal Swabs of Diabetic and Non Diabetic individuals - Oregbemhe P., Olubajo D., Dada A., Agomma F., Goodluck P., Atinsola-Moronto O., Fasanmade O. and Olalekan A.

FBCS Conf 2026 AbP0019: Knowledge, Attitude and Practice of Breast Self-Examination Among Female Students of The University of Lagos - Adejumo, S.A. and Akinsola, O.J.

FBCS Conf 2026 AbP0020: Knowledge and Perception of Polycystic Ovarian Syndrome among Female Students in the University of Lagos - Ekungba K. and Balogun M.R.

FBCS Conf 2026 AbP0021: Patterns, Prevalence, Distribution, and Outcomes of Traumatic Brain Injury in Sub-Saharan Africa: A Systematic Review - Otobo D.D., Ashong-Listowell M.S., Joël Manuel N.N., Daniel A.I., Chidubem U.G., Emeka E.J., Sami W.H., Katema C.

FBCS Conf 2026 AbP0022: Knowledge and Attitude Towards in Vitro Fertilisation among Women of Reproductive Age in Mushin Local Government Area, Lagos State - Awosika J.L. and Okafor I.P

FBCS Conf 2026 AbP0023: Prevalence and Health Seeking Behaviors for Chronic Back Pain Among Middle-Aged Residents in Lagos Mainland Local Government Area - Lawal, T.T.

FBCS Conf 2026 AbP0024: Antimicrobial Susceptibility Profiling of Aerobic Isolates obtained from Denture Plaques - Oyetunji M.T., Adegoke T., Adenipekun E., Akinboboye B., Nwaokorie F.O.

FBCS Conf 2026 AbP0025: Feasibility and Prevalence of Mismatch Repair Deficiency in Early-Onset Colorectal Cancer in a Nigerian Tertiary Hospital Cohort - Awolola N., Abdulkareem F., Badmos K.B., Akinjo A.O., Oluseye O.O., Odeghe E., Adejimi A., Lawal O.B., Kioki M.

FBCS Conf 2026 AbP0026: Access to Cytogenetic Testing and Risk-Adapted Care in Multiple Myeloma: Insights from a Nigerian Oncology Centre - Omoha C., Akinwunmi O., Osakwe Y., Njoku C., Oyekan A., Oleolo M., Omogbehin A., Adegbe S., Essien I., Matthew A., Arubaleze C., Mpamah N., Elebute-Odunsi M.

FBCS Conf 2026 AbP0027: Implementation of an EMR-Integrated Cancer Registry in a Private Oncology Centre in a Low-Resource Setting - Adegbe S., Osakwe Y., Essien I., Matthew A., Mpamah N., Arubaleze C., Akinwunmi O., Njoku C., Oyekan A., Oleolo M., Omogbehin A., Elebute-Odunsi M.

FBCS Conf 2026 AbP0028: Incidence and Management Approach of Patients with Multiple Primary Malignancies at Marcelle Ruth Cancer Centre (MRCC) - Osadogan O., Njoku C., Oyekan A., Osakwe Y., Adegbe S., Essien I., Matthew A., Akinwunmi O., Olatunji T., Oleolo M., Omogbehin A., Elebute-Odunsi M.

FBCS Conf 2026 AbP0029: Molecular Profiling and Biomarker-Targeted Therapy in Colon Cancer: A Single-Centre Experience from Nigeria - Osadogan O., Adegbe S., Njoku C., Osakwe Y., Akinwunmi O., Oyekan A., Essien I., Matthew A., Mpamah N., Oleolo M., Omogbehin A., Elebute-Odunsi M.

FBCS Conf 2026 AbP0030: Knowledge, Attitude and Utilization of Complementary and Alternative Medicine Among Breast and Gynaecology Cancer Patients Attending Lagos University Teaching Hospital, Lagos, Nigeria - Inuwa H., Muhammad H., Sowunmi A., Roberts A.A.

FBCS Conf 2026 AbP0031: Hepatitis B Virus Genotypes among Patients with Chronic Hepatitis B Infection in Lagos State, Nigeria - Oyedele O.M, Oshun P.O, Odeghe E.A and Anyawu R.A

FBCS Conf 2026 AbP0032: High Haemolysis and Vitamin D Deficiency Define a High-Risk Bone Phenotype in Nigerian Sickle Cell Disease Patients - Adiat A.L., Osikomaiya B.I., Adeyemo T.A.

FBCS Conf 2026 AbP0033: Zinc Levels in Women With and Without Endometriosis: A Comparative Cross-Sectional Study in Lagos, Nigeria - Saalu T.T., Familusi O.E., Ofoegbu O.U., Udenze I., Babah O.A

FBCS Conf 2026 AbP0034: Prevalence and Health Seeking Behaviors for Chronic Back Pain Among Middle-Aged Residents in Lagos Mainland Local Government Area - Lawal, T.T.

FBCS Conf 2026 AbP0035: Awareness, Knowledge, Attitude and Preventive Practices Towards Osteoporosis Among Women of Reproductive Age in Surulere Local Government Area, Lagos State, Nigeria - Badru Z., Ogunnowo B.E., Roberts A.A.

FBCS Conf 2026 AbP0036: Low MCV as a Novel Marker of Severe Renal and Inflammatory Phenotype in Sickle Cell Disease - Ogunnaike-Quaye TB, Osunkalu VO, Adeyemo TA

FBCS Conf 2026 AbP0037: Awareness and Utilization of Emergency Medical Services among Adult Residents in Surulere Local Government Area, Lagos State, Nigeria - Oluwakemi I.M., Onajole A.T., Adejimi A.A.

FBCS Conf 2026 AbP0038: Pattern of Orthopaedic Surgical Operations at Lagos University Teaching Hospital: A Five-year Review - Odupitan O.B., Akodu B. and Alabi E.

FBCS Conf 2026 AbP0039: Assessment of Bacterial Contamination and Disinfection Protocols in the Restrooms of a University College in Lagos, Nigeria - Bazuaye, J.O. and Oduyebo O.O.

FBCS Conf 2026 AbP0040: Biomarkers as Predictors of Functional Recovery in Stroke Patients Undergoing Neurorehabilitation: A Narrative Review - Adeleke A

FBCS Conf 2026 AbP0041: Assessment of Oxidative Stress Markers in Obese Infertile Nigerian Women - Gbenle O.A, Talabi O.T., Agbaraolorunpo F.M., Obodoezi C.O.

FBCS Conf 2026 AbP0042: Establishment of Population-Specific Reference Intervals and Calibration of Normal Pooled Plasma against ISTH/SSC Standard for Factor VIII and IX Assay in a Clinical Laboratory in Nigeria - Davies N.O., Bello Q.A., Adiat A.L., Ezebue C.A., Adeyemo T.A.

FBCS Conf 2026 AbP0043: Serum Homocysteine, Folate, and Vitamin B12 Levels in Two Representative Groups of Elderly in Lagos - Davies N.O., Iyere E.O., Ogbenna A.A.

FBCS Conf 2026 AbP0044: Genomic Data Governance and Clinical Integration Policy in Nigeria: A Review of the Regulatory Landscape for Whole Genome Sequencing in Patient-Centred Care - Olakulehin A.

FBCS Conf 2026 AbP0045: Evaluation of the Adverse Effects of Contraceptive Implants among Women in Lagos State, Nigeria - Usman S.O., Ogwurulobi G.Q., Busari A., Olusanya A, Oreagba I.A., Agbaje E.O.
